

# WHY MULTIVIEW ERP?

If your organization is looking for robust ERP functionality, combined with unlimited scalability and powerful reporting, Multiview ERP needs to be on your shortlist.

# SIX COMPELLING REASONS TO ACQUIRE MULTIVIEW FINANCIALS

## 1. Extraordinary Reporting Capabilities:

Multiview's industry leading reporting tool, ViewPoint, allows unprecedented report creation, query, drill-down, and OLAP analysis.

Our users feel the simplicity and ease-of-use of ViewPoint places it way ahead of other popular reporting tools such as Crystal and FRx.

Multiview's powerful accounting features combined with sophisticated financial and analytical reporting provides our clients the opportunity to easily analyze, in real-time, key performance financial, statistical, and operational metrics.

## 2. Unique Accounting Design:

Multiview's unique architecture and design allows you to easily incorporate your company's business processes into our applications.

Multiview's suite of products accommodates any enterprise; from a single company with a single chart of accounts to multiple legal entities in dissimilar industries with different charts of accounts including different fiscal years.

Both producing consolidated results with a single click of the mouse.

## Six Compelling Reasons To Acquire Multiview Financials

### 3. Fully Integrated Applications:

Multiview offers a full ERP suite of GAAP integrated financials that includes:

- Financial reporting
- Business Intelligence
- Analytical Reporting
- General Ledger (Budgets)
- Accounts Payable
- Accounts Receivable
- Order Management
- Billing & Invoicing
- Purchase Order
- Inventory
- Workflow
- Alerts
- Dashboards plus Payroll
- Asset Management
- Time & Billing
- Employee Expense Reimbursement Processing
- Construction-In-Progress
- Work Order Management

Our built-in, high-end Business Process Improvement (BPI), includes features like Imaging, Workflow, Alerts and Dashboards that come standard with no extra cost.

We have worked with many clients to integrate our financial applications with their production applications; we have the expertise to efficiently import data into our applications from any vertical market solution, either commercial or homegrown.

### 4. Scalability & Affordability:

Our customer base is brimming with clients who have trusted Multiview and have relied on us for nearly three decades. Many partnered with Multiview as small, local companies with basic requirements. As they grew in size and complexity into multi-national industry leaders, Multiview has continually met their increased needs, eliminating the time and expense of having to replace their accounting system.

We offer the world-class functionality of the industry giants for a significantly lower investment in license fees, support costs and implementation/training expenses... that's the Multiview advantage!
